1	Workshop facilities for residents or members/subscribers to undertake repairs and projects (eg. in the style of a 'makerspace') as higher density dwellings make it difficult to have space for a home workshop, and noise affecting neighbours becomes an issue. Eg. Bandsaw, lathe, tablesaw, belt sander, thicknesser, welder, dust extractor. Equipment that is not practical in small dwellings or too expensive for a typical home shop, but might be realistic in a shared space distant from sleeping neighbours.	3/14/2017 11:26 AM
